Subject: FW: BOSC materials
Attachments: 2021 Feb CSS BOSC Binder Materials_2021Jan15.docx; Appendix A_Part 3_CSS_Publications_v3.docx; Appendix A_Part 4_CSS_Tools.docx; Appendix A_Part 2_CSS_Scientific_Portfolio_Overview.docx; Appendix B_Part 3_HERA Deliverables.docx; Appendix B_Part 2_HERA Product Table (1).docx

Bruce:

Attached are the latest versions of the BOSC background materials. The background materials include binder materials containing the latest agenda, subcommittee roster, a one-pager showing ORD organization, the CSS and HERA Team roster, the draft of the CSS charge questions you sent to Jennifer this morning, the final charge questions for HERA, a short description of CSS STAR extramural research, and a one page list of CSS highlights.

Including as separate files are: A list CSS products pertaining the StRAP, a list of CSS publications 2019-2020-2021, a list of CSS tools and models, a list of HERA products, and a list of HERA deliverables. What you do not have here are the StRAPs, the Agency NAMs workplan, and the 2018 alternative testing methods document.

It is our intent to provide these to the BOSC Subcommittee on Tuesday, January 19th. We understand that the HERA StRAP is not quite ready to share and will follow-up with the BOSC later for that part of the background materials.

Please let us know should you have any concerns or comments.

And a very, very big thanks to Beth and Kathie for pulling together all this information.

Jeff
